

07-1987 [A-1700] Chess King - Bridge Master

Na de speelgoedbeurs te Neurenberg kwam in de zomer van 1987, Bridge Master op de markt. Prijs: DM 248,00.

Bridge Master

The first Bridge Computer ever designed to display all the cards and bids neatly. This instructive computer plays the role of partner and opponents, using easy-to-learn bidding conventions.

- Large LCD display shows the hands in the same way used by bridge books and newspaper columns.
- Bidding conventions include Stayman, Blackwood and pre-emptive bids.
- Easy to operate - uses only 6 keys.
- Replay feature returns to the start of bidding so the user may play the same hand again and again for practice.
- Setup feature allows the user to choose which cards are dealt to each of the players.
- Comes with free battery.
- Battery life at least 400 hours.
- Low power mode retains the hand for up to 11 years.
- Instruction book also teaches bridge.
- 4K ROM
- 128 bytes RAM
- LCD IV microprocessor, 400 khz
