

11-1982 [E-4201] Fidelity - **Skat Challenger**

Fidelity model: SKT. Een kaartspelcomputer met een houten omranding zoals de Chess Challenger Voice. De taal is instelbaar in Duits, Frans en Engels.

SKAT CHALLENGER® lets you play the popular game of SKAT anytime, even if you are alone. And it communicates in any one of three languages - German, French or English - at the push of a button.

A versatile and skillful player, SKAT CHALLENGER® can replace one, two or three human players. It can be your partner or your opponent, and it never looks at the other hands - it does not cheat.

- Use real playing cards or SKAT CHALLENGER® will automatically generate an unlimited number of random deals.
- Plays according to DSKV or ISPA rules.
- Plays Ramsch, follows Kontra/Re.
- Bids and plays contracts - Null, Null Ouvert, Grand, Grand Ouvert, and Ramsch. Contract selection keys: Schneider Angesagt, Schwarz Angesagt, Grand Null, Hand, Ouvert.
- Keeps score for all players.
- Can replay any hand without card reentry.
- All solid state circuitry Plug-in AC wall adaptor.
Size (approx.): 13 x 8 x 1 inches.
