

07-1981 [A-1459] Applied Concepts - **WitsEnd** (game module)

Het moduul **WitsEnd** werd net zoals bijvoorbeeld **Lunar Lander** al eind 1980 aangekondigd voor de **Great Game Machine (MGS III)**, en verscheen in de zomer van 1981 op de markt.

Match wits with **WitsEnd** Digital Decoding Game Module

You've probably seen the version of Mastermind where children try to guess what color peg is in a certain position preselected by an opponent. Well, the **Modular Game System** now has the **WitsEnd** digital decoding game module that's a real wit twister for all ages. Utilizing a series of numbers coded into varying positions (depending on levels of play) **WitsEnd** will clue you when you've selected the correct number in the proper position. And, what's more, you have the option of creating a digital code and letting **WitsEnd** try to decipher it. The **Modular Game System's WitsEnd** with its nine levels of difficulty can provide hours of wit-sharpening entertainment for all members of your family. Match your wits with **WitsEnd** and play the digital decoding game. **WitsEnd** is a game module for exclusive use in the **Modular Game System**.

Match Wits With
WitsEnd
Digital Decoding Game Module

You've probably seen the version of MASTERMIND* where children try to guess what color peg is in a certain position preselected by an opponent.

Well, the Modular Game System now has the **WitsEnd** digital decoding game module that's a real wit twister for all ages.

Utilizing a series of numbers coded into varying positions (depending on levels of play) **WitsEnd** will clue you when you've selected the correct number in the proper position.

And, what's more, you have the option of creating a digital code and letting **WitsEnd** try to decipher it.

The Modular Game System's **WitsEnd** with its nine levels of difficulty can provide hours of wit-sharpening entertainment for all members of your family.

Match your wits with **WitsEnd** and play the digital decoding game.

WitsEnd is a game module for exclusive use in the Modular Game System.
